

THE WORLD OVER

SAAR VOTE UNANIMOUS, RETURN

HAWAII TO CALIFORNIA FLIGHT

BROWNLEE ASKS NEW TRIAL

BAARTRUCKEN—An overwhelming victory for Germany in Sunday's plebiscite was announced by the Saar Plebiscite Commission. A 98.5 per cent vote was cast for return of the long-disputed Saar Territory to Germany. The vote cast for the Reich totalled 47,685.

The remaining 9.2 per cent of the total vote was divided between the status quo, which is governed by the League of Nations, and the votes for France, which constituted but 3.3 per cent of the vote.

There were 46,413 votes or 93.7 per cent for the status quo, and 2,693 votes for France.

OAKLAND, Calif.—Making the first solo flight between Hawaii and California, Amelia Earhart Putnam landed on Sunday after a record-breaking flight. "I was so tired," she said, "I could not have touched dry land at 121 a. m., just 18 hours and 16 minutes after her exciting take-off from Wheeler field, 85 miles out of Honolulu.

EDMONTON—Application for a writ was filed in the Supreme court on Saturday by former Premier J. E. Brownlee. It has been learned, H. E. Brownlee, that unfavourable publicity given to the trial last June of the action brought by Allan D. MacMillan of Edmonton, and his daughter Vivian, prevented a fair trial.

In the meantime the appeal of the

VOLUME 12, NUMBER 51

"STANDARD LOAF" MUST NOW BE SOLD IN ALBERTA

Following New Year's Day every loaf of bread sold in Alberta cities and towns must weigh 39 oz. according to the law issued to bakers-throughout the province by Government authorities.

The new provincial regulations affecting the trade in bread provide that bakers' premises must be passed upon either by the local health board where such is established or by an inspector of health by the provincial board of health before a licence can be granted. Provision is made for the issue of a temporary permit in case of need.

The regulations govern sanitary conditions in bakeries, handling of supplies, care of bread in stores and other details. They provide that "no person shall sell bread subject to the condition that the purchaser may return same, and no person who has sold any bread shall take back or exchange any bread baked previously sold to him by a distributor."

Punitive for the violation of the regulation is a fine of not less than \$1 and not more than \$100 for a first offence, and not less than \$25 and not more than \$500 for any subsequent offence. Alternative jail terms are provided.

MacMillan against the action of Mr Justice Wray. In fact in neither side of the trial, award of \$15,000 damages, given in Edmonton.

Seed Exchange Policy is Extended by Governments

Entering its third season the seed exchange policy established by the provincial and federal departments of agriculture in Alberta will be continued this year. The main object of the policy is to extend the use of pure seed in wheat, oats and barley crops.

Under the policy farmers have the opportunity of exchanging their grain for good seed at established rates. Freight is paid by the provincial and dominion departments on approved shipments of seed from growers to purchasers. Farmers delivering grain to be exchanged for seed will be allowed truck price for their commercial grain. Seed growers selling seed will be paid a fixed premium over the truck price at shipping point, depending on the grade and quality of the seed which is purchased on a grade basis and not on a commercial grade basis. The quantity of registered and certified seed is limited, it is must be by the provincial field crops branch, and it is suggested that farmers can best take advantage of the policy by purchasing seed in advance of the season. Last year some 51 carloads of pure seed were distributed to farmers under this policy of which 50,000 bushels were wheat, 24,000 bushels of oats and 1,000 bushels of barley.

NOW YOU TELL ONE

Sitting around the country stove and swapping their best yarns. One of them began a wild one. "When I was up in Montana," he said, "I saw a mountain lion coming right up to the camp one day. It was a fine hunt, but I, with great reserves of mind, took a bucket of water in its face and it took away."

"There," said an old man, sitting on a chuckle box in the corner, "I can vouch for the truth of that story. I saw a mountain lion coming right up to the camp one day. It was a fine hunt, but I, with great reserves of mind, took a bucket of water in its face and it took away."

"There," said an old man, sitting on a chuckle box in the corner, "I can vouch for the truth of that story. I saw a mountain lion coming right up to the camp one day. It was a fine hunt, but I, with great reserves of mind, took a bucket of water in its face and it took away."

DANCE REVUE TO BE HELD IN CARBON TUES. JAN. 22nd.

A dance revue with a cast of thirty taking part, will be sponsored by the Duke of York Chapter 10,132, and presented in Carbon in the Farmers Exchange hall on Tuesday evening, January 22nd, at 8.15 sharp. This promise to be a splendid entertainment and has been planned three times in Wayne to capacity houses, and at the Starliner Theatre in Drumheller under the patronage of the Rotary Club of that city, where it received the greatest praise.

The program is composed of dancing, singing and musical numbers, including of which is the Cowboy band. This item alone is said to be worth the price of admission and is the only cowboy band in Alberta.

The dance numbers are all in costume, comprising Irish melody, Dutch, naval and others. The cast is very cleverly trained and the 10,132, will greatly appreciate the patronage of the public at this concert, where they will be assured a splendid evening's entertainment. The admission prices are: adults, 50c; children, 35c.

CONSTITUENCY ORGANIZE AT ACME MEETING

Liberals of the Didsbury riding in the province of Alberta met at Acme in the Hardware hall on Wednesday, January 18th and elected the following officers:

Hon. Presidents, W.R. Howson, of Calgary, and W.A. Austin, Didsbury. President, E. E. Kohn. Vice Presidents, representing each district: Cecil Ashford, Didsbury; C. W. Carstairs, J. J. Greenan, Calgary; John Wacker, Bowdoin; A. Shindler, Three Hills; Ghost Point, to be elected by committee.

Secretary, J. R. Goodrich, Acme. At the close of the election of officers, C.R. Walrod, candidate for Bow River riding, addressed the meeting.

Train Demolishes Berreth's Truck

The deaths of Captain and district will not see the truck owned by the Lakewood Farm at Beiseker, near the Wednesday night of last week it was struck by a Canadian Pacific engine at the 21st street east railway crossing. Drummiller, and was reduced to splinters and scrap metal. Gottlieb Berreth, the driver, was thrown clear of the wreckage and sustained only slight cuts and a severe shaking up.

Berreth was returning to his farm near Beiseker with a load of stove coal when the accident happened. He was in the twilight faded to see the approaching train until too close to avoid a collision.

What remained of the truck and the load of coal was piled into another truck and removed to the farm at Beiseker. How Berreth escaped instant death in the smash-up was nothing short of a miracle. If the remains of the truck tell the true story.

JUVENILE HOCKEY TEAM ORGANIZED IN CARBON

A meeting of all interested in Junior hockey was held in the Municipal office on Friday evening.

It was decided to sponsor a team of players of 17 years and under to arrange games with neighboring towns when convenient.

The following officers were elected: President, W.A. Brasher.

Vice-President, C.H. Nash. Sec.-Treas., Bruce Ramsay.

Manager, Les Dixon. Coach, A. Barnard.

The manager would like to hear from juvenile teams within a radius of about 30 miles, who would like to clash with the local boys.

Wheat Marketings

Over 700,000 bushels of Alberta's 1934 winter crop have been marketed to date, compared with 57,000,000 bushels of the 1933 crop marketed at the same date last year.

Canada Makes Progress Says Beatty

C.P.R. President Reviews Past Year and Finds Evidence of Permanent Economic Improvement in Advances so far made—Predicts Canadian Wheat as Best in the World will find Steady Market.

THE course of our recovery from the economic catastrophe which swept over the world in 1929 and 1930, is markedly different from that of any of the previous cases of business depression in this country. This time we seem to be experiencing a process of economic expansion, and, as far as I can see, one of permanent recovery. The course of our economic activities to conditions which have radically and permanently changed. What we are today experiencing is a process of economic expansion, and, as far as I can see, one of permanent recovery.

Canada In 1935

Now that the world is well launched into the new year, and we are becoming accustomed to writing 1935 instead of 1934, the question should become more and more insistent, rather than less so, as to what we propose as individuals and as citizens of Canada to make of this new year. A new hopefulness seems to prevail and a greater degree of confidence is in evidence than that this year is to provide opportunities which were lacking in 1934. It remains for the individual to grasp those opportunities and bend them to his will.

The depression has been teaching many important lessons. It has been a hard taskmaster, and the lesson taught through bitter experience have not been pleasant ones, nevertheless they will prove of the utmost value if they are heeded. Through force of circumstances, tens of thousands of people have been compelled to turn to their best community for assistance, with resources thus taxed to the limit, local communities have had to turn to their Provincial Governments for aid; Provinces, in turn, have had to rely upon the Federal authority with its resources.

School districts and rural municipalities have found they could solve their problems and do what they felt ought to be done without Provincial assistance. Provinces now realize that Federal policies have a more direct bearing on Provincial finances, and Provincial policies have a more direct bearing on Federal finances, and carry on than was appreciated in the past; the Dominion Government has learned, as all national governments have learned, that with all its powers it, too, is handicapped, and its ability to act as it truly believes to be in the national interests, nullified by the policies and acts of other nations.

The depression has enforced the lesson that, while the world of nations may not be a political unit, they are economic units and that not one of them can fully prosper isolated from others; rather, statesmen, financiers and business men realize that complete independence of nations in finance, trade, and many social policies must be submerged in a large acceptance of the interdependence of all.

Internationalism in its true and proper conception must replace the old too long accepted idea of nationalism, and the old conception of "my country first, and all the time" regarding other nations, must be abandoned. As one writer recently put it: "Nationalism is of yesterday; super-nationalism is of tomorrow; and he pertinently says and asks: 'Canada stands at the intersection of the world's ways—which will she take?'" It is for the individual Canadian to decide.

Unlike Great Britain, Canada has not possessed a large and broad viewpoint of world affairs. This is accounted for by our youth as a nation, by our remoteness in the center of the world affairs, by our close proximity to the United States where extreme nationalism and isolationist policies have always prevailed. But Canada's vision and responsibilities were broadened by the war. Becoming a large world power, Canadians have learned and learned rapidly. This Dominion has been one of the staunchest supporters of the League of Nations, and all that the League stands for in international co-operation and the promotion of peace and international goodwill.

There can be no turning back for Canada—we must play our part in the world arena. Only so can this Dominion further develop and prosper. Narrow nationalism, no matter how it may be expressed, means a restriction to a colonial status and a turning of our backs on the new world of the twentieth century. Even in the United States there is a tremendously stronger sentiment in favor of acceptance of the larger international viewpoint and in support of co-operation with other nations. And no other nation than Canada can do more to advance and strengthen that sentiment. It is in our own interests that this should be done, and it is one of the great services Canadians can now render to the world.

And in the sphere of our domestic Canadian affairs, it should be the aim of our people to bring about a closer union, a better understanding, and greater co-operation with the Provinces. This is needed for amendment and change in the constitutions of the Dominion and the Provinces which will remove existing causes of friction, eliminate over-lapping in authority, and provide ways and means of mutually advantageous co-operation. The foundations of our Canadian Confederation are good and sound, but the framework erected thereon can and ought to be improved and made more adaptable to present day needs and requirements.

It is submitted that it should be the chief task of the Canadian people to achieve marked progress in these directions before "fair" is written to the year 1935.

Selling On Open Market

Russian Grain Growers Who Fulfilled Plan Receive Reward

Grain growers of practically all European Russia and Eastern Siberia have been granted permission to sell grain, flour and bread on the open market as a reward for their fulfillment of the grain collection plan. This permission extends to the collective farms and to private farmers as well, and was granted by the central committee of the Communist party and the council of people's commissars.

London has started a campaign to teach tourists and to advertise their names on cathedral walls and other places.

MONTREAL WOMAN SWEARS TO TRUTH

In her health was a tale of a scandal, Mrs. Florence Williamson, 420, Bloomfield Ave., Montreal, told in a sworn statement how she tried to force and at last became completely free from conspiracy, and how she overcame the absolute truth of her statement Mrs. Williamson's statement is to tell of her experience under oath before a jury. She is 42 years old, and was twelve years old when she was christened Christian. I never felt until I started taking Pepsin pills and now I can truly say they gave me wonderful relief. I never felt so good and strongly any woman who has had the same trouble will know that I am not lying. I am Mrs. Williamson's own statement and it is on the ground of the Montreal, Quebec, Canada.

Increase in Industry

Germany Makes Most Progress And Canada Well Up

Steady increase in industrial activity in a number of countries during 1934 was reported by the economic section of the League of Nations.

Countries in which particular progress was recorded were Germany, Italy, Norway, Sweden and Poland.

Decreases were recorded in the United States, France and the Netherlands.

In several other countries the important increase reported at the beginning of 1934 was interrupted after June and July when definite drops were recorded.

Compared to October, 1933, industrial activity in October, 1934, marked an increase of 20 per cent in Germany, 19 per cent in Sweden, 15 per cent in Italy, 9 in Canada, 8 in Poland and 4 in Norway. Against this there was recorded a decrease of 4 per cent in the United States, 5 per cent in the Netherlands and 13 per cent in France.

BROKE HER LEG AGAINST A STAIR

Whist Hampered By Rheumatism

"Two years ago," writes a woman, "I was afflicted with rheumatism in my legs, and when walking upstairs one day just kicked my right leg against the stairs, and broke my leg, just below the knee. I was in hospital for three months, and when I came out someone advised me to try to get my leg straightened out, but I had no trace of rheumatism. I would not be without my daily dose of Kruschen's salt tablets, every morning—half a teaspoonful in warm water."

The six salts in Kruschen stimulate the liver and kidneys, and by their regular action assist them to get rid of the excess uric acid which is the cause of rheumatism. When the poisonous uric acid goes with the blood, it is a choice between staying there or no doubt about those aches and pains going to the leg.

900 Fighting Planes

Centralized Army Air Force For United States

A centralized army air force of approximately 900 fighting planes, available at any instant for use for attack or defence, was organized at the United States war department.

The force, the establishment of which was termed by Secretary of War George Dene, "the most important and revolutionary step toward modernization" of combat units since the Great War, will be known as the Army Headquarters Air Force.

The commander will be Lieutenant Colonel Frank M. Andrews. Actual establishment of the force will take immediate command of the army's aerial fighting units from Major-General Benjamin D. Foulois, chief of the army air corps.

The fighting planes will be placed under the chief of staff, now General Douglas MacArthur.

Canada's Oldest Doll

Given As Birthday Present Ninety-Three Years Ago

Ninety-three years old is a doll belonging to Mrs. Marinda Hilliard, retired 103, of Oakville, Ontario, was premier honors at a doll festival held in Brantford United Church.

Pink-checked and as smooth as skin as the day she was in her prime, the doll slept all opposite before her, including entrants from all over Canada, Texas and France. She won the prize for the most perfect Beauty of face, design and workmanship of the pretty white lace dress she wore, her age and the fact that her owner is still alive. A centaurian.

Given to Mrs. Hilliard on her 10th birthday, it is as perfect as the day she unwrapped it on that eventful morning, 93 long years ago. It is believed the doll is the oldest in Canada.

Ancestor Of Piano

The earliest known ancestor of the piano was the "ke" invented in China about 2600 B.C. That instrument had 50 strings, and was made of 81 silk threads, stretched over a five-inch wooden box. It was played by tapping the strings with a hammer.

Hayon production in Italy is 22 per cent above that of a year ago.

YOUR HANDWRITING REVEALS YOUR CHARACTER!

By LAWRENCE HIBBERT (Grapho-Analyst) (All Rights Reserved)

Editor's Note: This writer deals with another very interesting problem this week. You may not be confronted with a similar case but you probably have some problem in which this well-known Graphologist's advice would be welcome. See his invitation to you following this week's article.

Miss "Anxious" writes as follows: "I work in an office and am very dissatisfied with my work, although I can put up with it for the sake of getting something to do and the salary that goes with it. I would much prefer to have studied medicine, and would have done so if I had not been prevented from following it up."

I am terribly fond of two men, and I really cannot choose between them. Should I marry the young man who has been brought to me before success comes (I am willing to help him in the struggle if I can make up my mind to love him enough to marry him). Or should I marry the older man who is 20 years of age and I am but 27. This is a very difficult choice to make."

In consideration of this problem, note consideration of handwriting is not concerned, there is a character is concerned, there is a choice to be made between these two men. They are both straightforward and reliable with the money and doesn't have to worry about it. I am sure that the young man has his way to make in the future, and I have no doubt that the older man is a very good man, but I do not feel as if I can do so easily with him in his chosen line of work.

So it is necessary to use psychology. Here we have a girl who is in the line of the finger stage, and she is quite generally speaking, to be able to make a choice between the two men for her life partner.

It is my belief that she is rather partial to the young man. His ambition to get on strikes a responsive sympathetic chord in her nature, because girls are usually more sympathetic to the younger men who are striving hard to make progress.

But it is not only this. She herself would take up the study of medicine and would only give up her career if she were to marry the older man. Her interest is thus in medicine and those things that are the work of a doctor represents.

Again call it and you will notice that I am accepting her own expression that she is very fond of them both. At its face value, she has the wealthy older, and "Miss Anxious" is really more in love with the possibilities of comfort and financial security that his money represents.

This latter angle is, I believe, clouding the fact that she is more in love with the young doctor. Not for a moment do I doubt the girl herself. She is fairly well-balanced temperamentally, is capable and intelligent, and is capable of making a choice to stand by her decision.

I advise you, "Miss Anxious," to decide in favour of the young man. It is my own personal opinion that you are really more in love with him, and I think you will feel settled after making this decision, and glad that you did so.

I wish you all happiness and hope that your young doctor will be able to overcome a struggle before he reaches comparative success.

The writer of these fascinating articles can help you, too. Do you wish to know the story behind your own handwriting? Would you like to know the truth about your friends? Would they be sincere or deceitful, reliable or dishonest? Would the capacity to aid the struggling doctor? Would he be a good husband? She also has the sympathy and kindheartedness that would make him in his struggles.

I advise you, "Miss Anxious," to decide in favour of the young man. It is my own personal opinion that you are really more in love with him, and I think you will feel settled after making this decision, and glad that you did so.

THE CHRONICLE

TOWN & COUNTRY
Personalographs

The financial statement of the Village of Carbon for the year ending December 31, 1934, will appear in our next issue.

Winter is still with us. Plenty of snow covers the ground and roads drift in as fast as they are opened up. The weather stays below zero, sometimes at thirty below, and once in a while it gets close to the zero mark. Coal mines in the district are benefiting from the prolonged cold spell and miners should have a full pay coming on the 23rd, from all indications.

Outside curlers are asked to bear in mind the dates of our annual bonnet festival, 25, 26 and 27, Carbon puts on a goodspiel each year, with a good list of prizes, and visiting curlers are always welcome. A show will be held the first night of the bonnet.

A. Matilda Anderson, of Anderson and McGee, sight specialists, Calgary, will make his next visit to Carbon, at McKibbin's Drug Store, on Tuesday, January 22nd, morning only.

Don't forget the carnival to be held at the Carbon skating rink Friday, January 18th.

Chick Harsch came out of the hospital in Calgary on Saturday and is expected to return home this week.

W.H.T. Otter was a Calgary visitor the first of the week.

Armond Trecotte, driver for the Red Line, spent his day off in Carbon the first of the week.

Handle DeForest of Drumheller, who is a living hand and guitar lessons in Carbon, was snowed out here for a couple of days last week.

Miss Grace Cameron was rushed to the hospital on Monday, suffering from acute appendicitis, and was operated on immediately on arrival at that institution. Latest reports are that she is progressing favorably.

Mrs. Jasper Rochester was a Carbon visitor last week and left on Monday to join her husband north of Edmonton.

Owing to heavy snow the bus service has been interrupted at times during the past week, but at the present time all schedules are being maintained.

at time all schedules are being maintained.

Mrs. L.G. McQuade was a Calgary visitor this week and returned on Tuesday.

Reform, effective and immediate, was the keynote of debates at the afternoon session of the convention of United Farmers of Alberta on Tuesday, in Calgary. Reform was urged in the report of the President, Robert Gardner, M.P., presented in the address of Hon. R.G. Reid, provincial premier, and sought by every speaker. One delegate declared firmly and frankly that he had been instructed by his local to inform the convention that unless the U.F.A. candidate there placed himself to support social credit, he would not accept the support of the U.F.A. local.

T. G. JOHNSON, Agent, CARBON

Just as preparations were being completed for the opening of the parliamentary session in Ottawa on Thursday political circles were surprised by the resignation of Hon. Geo. Black as speaker of the House of Commons. Illness was given as the reason for Speaker Black's resignation.

THE KNOCKER

After God had created the buzzard, the snake, the scorpion, the centile and all the other repulsive, noxious creatures which are put on earth in its waters to make decent mortals thankful that they are not such as they, he had a little substance left which was so unappealingly vile that it could not be incorporated in anything else which he had just made. But he had to do something with it, so he made the knocker.

A knocker is a two-legged animal with a corkerous soul, a water-soaked brain, and a combination backbone of jelly and ice. Where other mortals have their hearts carried a tumor of decayed principles. When the knocker comes down the street, honest men turn their backs, the angels weep in heaven, and the devil shuts tight the door of hell to keep him out.

Therefore, don't be a knocker. You can't saw wood with a hammer—Be change.

Snicklefritz ----

He! I know a lot of new tricks. I can imitate any bird you can think of. She! How about a homing pigeon?

"To achieve success, keep your eyes open and your mouth closed," says a lecturer. To eat a melon, reverse the process.

"Glasses do not improve the eyesight," declares a correspondent.

That, of course, depends on how many you take.

Customer: These shoes I bought are too flimsy to walk in.

Manager: Our establishment, madam, does not pretend to cater to pedestrians.
